

Akorede Alao

Full-Stack Engineer

akoredealao18@gmail.com | 09058977101 | Lagos, Nigeria | codetech.com

PROFESSIONAL SUMMARY

Full-Stack Engineer with 3+ years of professional experience designing, building, and shipping production-grade web and mobile applications. Proficient across the full JavaScript/TypeScript stack — React, Next.js, Node.js, Express, React Native, and Firebase. Experienced building scalable multi-tenant SaaS platforms, RESTful APIs, real-time systems, and mobile applications. Comfortable working independently, delivering clean well-reasoned code, and contributing to cross-functional remote teams.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+)

Frontend: React.js, Next.js, Tailwind CSS, HTML5/CSS3

Mobile: React Native, Expo

Backend: Node.js, Express.js, RESTful API design

Databases: Firebase Firestore, SQL, MongoDB

Cloud & Services: Cloudinary, Vercel, Render, Resend API

Auth & Payments: Firebase Auth, JWT, payment flow integration

Tooling: Git, GitHub, Webpack, Babel, Vite

Testing: Unit testing, integration testing

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Dongmi Technologies, Lagos

2024 – 2025 | Hybrid

- **TypeScript & React:** Built dynamic, type-safe interfaces using React and TypeScript, improving user retention by 15%.
- **Node.js APIs:** Designed and implemented RESTful APIs with Node.js and Express, enabling efficient data flow across the stack.
- **Testing:** Wrote unit and integration tests reducing post-launch bugs by 30%.
- **Performance:** Applied code splitting, lazy loading, and build optimisation via Webpack and Babel.
- **Collaboration:** Worked closely with designers and backend engineers in a remote-first environment.

Full-Stack Developer — ReadersPlug

Sep 2021 – 2023 | Remote

- **Full-Stack Delivery:** Rebuilt core application pages using React and Node.js, increasing engagement metrics by 30%.
- **API Optimisation:** Integrated optimised RESTful APIs with Express.js, improving backend response efficiency.
- **Performance:** Reduced page load times by 40% through dynamic routing and backend query optimisation.

KEY PROJECTS

Servrr (servrr.ng) — Multi-Tenant Restaurant SaaS Platform

- Built a multi-tenant SaaS platform enabling restaurants to manage menus, orders, and branding from a single platform.
- **Stack:** React + Vite, TypeScript, Tailwind CSS, Firebase Firestore/Auth, Node.js/Express, Cloudinary, Resend API, Vercel.
- Architected Firestore multi-tenant data model (/restaurants/{id}/orders, /restaurants/{id}/menu).

- Implemented dynamic CSS theming via --accent custom property, self-serve onboarding, and email verification.

LIV DOT — Mobile Event Viewer — React Native Assessment

- **Built a React Native event viewer covering 8 distinct states:** loading, no access, payment pending, live, replay, upcoming, stream offline, and device offline.
- **Stack:** React Native, Expo, TypeScript, expo-network, React Navigation.
- Modelled all viewer states as a TypeScript discriminated union — impossible state combinations unrepresentable at compile time.
- Implemented network resilience with background polling and automatic screen restoration on reconnection.

CodeTech Gadget — E-Commerce Platform

- Built a full e-commerce gadget store targeting the Nigerian market with React 18, TypeScript, Tailwind CSS, and Firebase.
- **Features:** product catalogue with search/sort/filter, cart with promo codes, admin portal with Firebase auth gating, Cloudinary image upload, real-time Firestore updates.

CreditEase — Fintech Landing Page

- Built a fintech P2P airtime exchange landing page from a Figma design using React and TypeScript.
- Implemented a custom useTypewriter hook for animated hero heading — shipped as TikTok developer content.

EDUCATION

Professional Diploma in Software Engineering

NIIT | 2019 – 2023 | Lagos, Nigeria
